

INTEFLEX™ Panel System Designs

STACKING MODULAR WALL PANEL SYSTEM

ILLUSIONS™

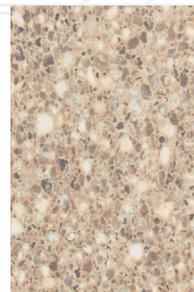

By combining a vertical panel with large horizontal panels the ILLUSIONS™ design visually enhances the true size of the cab. Change the wood laminate to a solid color or patterned laminate to create your very own ILLUSIONS™.

The ILLUSIONS™ design is composed of four panels. The large vertical panel can be faced with mirrored or brushed stainless steel or even a laminate. The two large horizontal panels are separated by a narrow horizontal panel behind the handrail.

Additional ILLUSIONS™ panel designs and material selections can be seen on our website.
