

INTEFLEX™

STACKING MODULAR WALL PANEL SYSTEM

STRUCTURE™

The STRUCTURE™ can reflect your buildings refinement with wood, patterned and even solid color laminates. You can build your own STRUCTURE™ design to enhance your buildings interior.

Vertically featured panels are divided proportionally with powder-coated panel reveals. The upper and lower panels are separated by a narrow horizontal panel behind the handrail. The recessed cap reveal, wall base and corner reveals frame the STRUCTURE™ design.

Additional STRUCTURE™ panel designs and material selections can be seen on our website.
www.InteflexPanels.com

Artistic rendering. Actual design is proportionate to cab size. INTEFLEX™ STRUCTURE™ with Formica® Lacewood 0744 laminate. Brushed stainless steel side panels. Black powder-coated panel reveals. Recessed stainless steel wall base, cap and wall reveal. Shown with 2" stainless steel flat bar handrail.
