

INTEFLEX™

STACKING MODULAR WALL PANEL SYSTEM

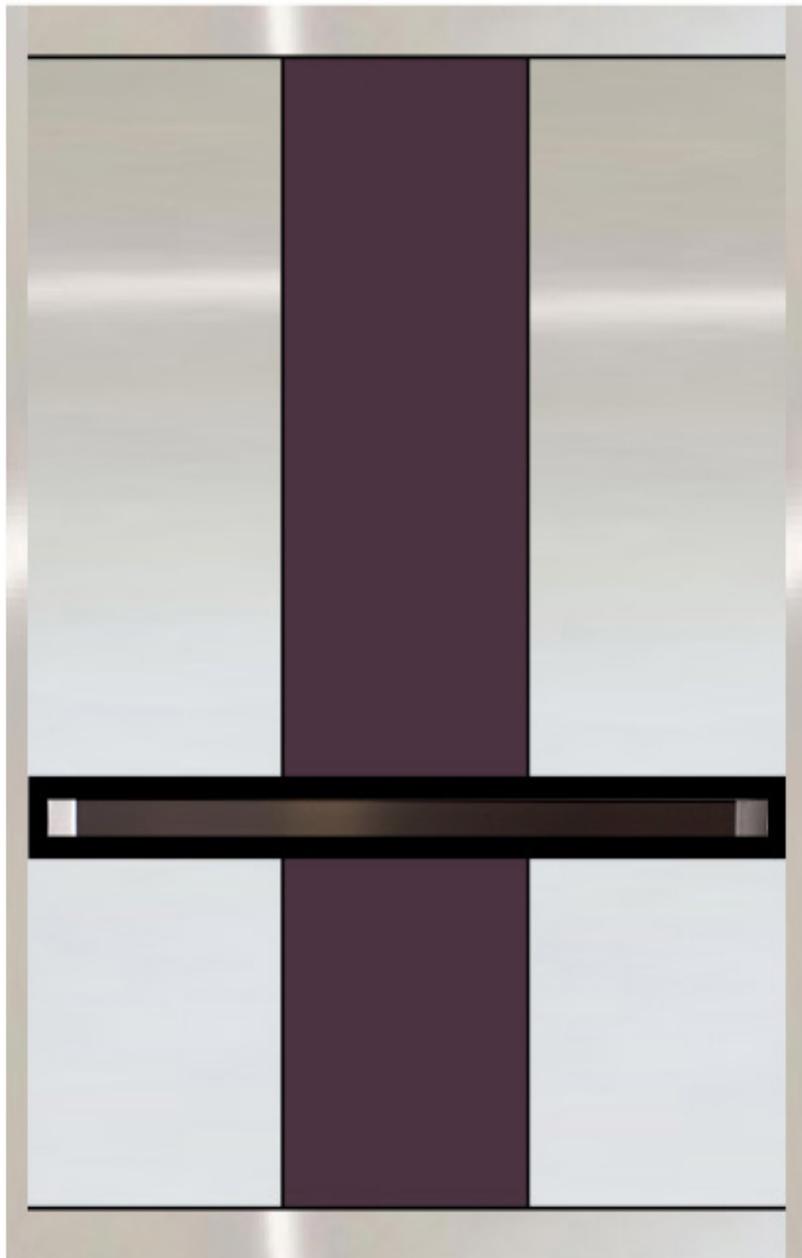

TOWERS™

The TOWERS™ design can be elegant, functional, commanding or all three! This design keeps the long upright lines that have made the VERTIGO™ one of our most popular designs and adds a modern or elegant twist depending on your choice of panel facings.

TOWERS™ features a narrow horizontal panel at handrail height that defines the wall. Three upper panels stretch to the cap reveal. The three lower panels visually support the upper panels.

Additional TOWERS™ panel designs and material selections can be seen on our website.
